Art Unit: 1921

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Shahani on 3-23-99.

2. The application has been amended as follows:

In claim 14, line 2, deleted "killing solution comprising" and inserted after "capsicum" --whereby the aqueous formulation is a killing solution--.

3. The following is an examiner's statement of reasons for allowance: the above changes to claim 14 were discussed with Mr. Shahani. The examiner indicated to Mr. Shahani that the reference to Hainrihar would still read on the proposed claim 14 submitted on 3-22-99. The claim limitation to the "killing solution comprising an aqueous formulation containing capsicum" was considered open ended language, i.e. the limitation would cover solutions having aqueous formulations containing capsicum along with other chemicals used in treating termites. Clearly, the Hainrihar reference disclosed contacting termites with an aqueous formulation killing solution containing capsicum and other known pesticides such as Paris green and carbolic acid which were very strong poisons used to kill the termites. Thus the Hainrihar reference read on proposed claim 14. The above amendment now limits the killing solution to only contain an aqueous

formulation containing capsicum for killing the subterranean termites. None of the prior art disclosed a method of killing termites with an aqueous formulation containing capsicum.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jack Lavinder whose telephone number is (703) 308-3421.
